Kamalishree M

Data Engineer | SQL • Python • Azure Databricks • Airflow • Power BI • Azure DevOps | Tech Enthusiast & Emerging Leader

Madurai, Tamil Nadu, India

Summary

* Successfully contributed to the "Bank of Baroda project", focusing on alternate authentication methods, which led to my selection for the next round of evaluation.

* Served as the "President of my college's Toastmasters International Club" (July–December 2023), during which the club achieved the prestigious "President's Distinguished Club" status.

* Participated in a "World Record Public Speaking Event", demonstrating my strong communication and public speaking skills.

* Delivered the "Club Success Plan session" to over "15 plus clubs" across our Toastmasters division, supporting their strategic growth and leadership alignment.

* Recognized for strong leadership, clear communication, and a passion for continuous personal and professional development.

Experience

Hexaware Technologies

Segue Training

January 2025 - August 2025 (8 months)

Key Learnings from My Training Journey:

Gained professional & workplace skills through roleplays, case studies, and soft skills sessions.

Built a strong foundation in MS SQL, MySQL, and Python with real-time assignments and coding challenges.

Strengthened expertise in Data Engineering with Advanced SQL, MongoDB, Python (NumPy, Pandas), PySpark, Azure Databricks, Apache Airflow, and Azure DevOps.

Refined communication, confidence, and workplace readiness through advanced soft skills training.
